Enjoy the tranquil and relaxing interface

## Weather Details

After I never had a problem waking up with this alarm! I have contemplated to give him 4 stars because it's so good. I have to keep the app open in the background but I imagine, like any app that is already installed in the phone, which is not possible that the app works if you close it no longer being shaken. After setting the alarm, the app can be put in the background - allowing you to use other applications. I replaced it with this app and I love it. This ensures that you are slowly but certainly raised by your sleep. In recent years, they never wanted more than 15 minutes to wake up. Alarm features a tranquil zen music collection and a picturesque zen alarm screens features of app. Zen alarm clock is a world clock. Zen is different from other alarm clocks? The user interface uses traditional Zen design techniques. For the developer - many thanks. This app has very relaxing sounds to wake up gradually that it is great. You will come out of sleep slowly and peacefully. I had a Zen alarm clock, which in the end he died after about 10 years. My only suggestion to users: if you use a Bluetooth headset, don't forget to deactivate it unless you are using it. It is therefore possible to go back and review the rumors of the diary and you can export the diary by e-mail. I am someone religiously comes out of all applications before blocking my phone. Here are some comments of the App Store related to bells: "Best sound bells of any meditation app so far" - Sibergrl "The bells in this app are bright" - Lairbob "Different different bell sounds to choose from and feel all 'live'" - Vaderpi "Great quality of sound" - Karlagathon "The tones are stunning" - sleeve d "hell beautiful bell sounds" - wolf94114 "Splendid digital bell sounds" - Zenji "I Sounds 03 03 a otunim 1 ad ezonoS -ehcitsirettaraC ertlAnewgnp - "ilibaroda onos anapmac Safe report: optional loud backup sounds- seven colors available for the time display: optionally keep the phone from sleep - huge landscape landscape display- app works even when the phone is sleeping (locked) 19 Nov 2016 version 5.2.1 This app It has been updated by Apple to view the Apple Watch app icon. + Reduced battery consumption + option to play white noise + show Badge on the icon When the alarm is waiting + App Polt Bug fixes has problems from time to time. I am a very deep sleeper, and if I have to be raised from a very specific moment, I just set the alarm ten minutes in advance. The music has been selected based on rhythms discovered scientifically recommended that you will be relaxed but watched up. Every element of Zen alarm has been designed with the top of the serenity mind. For more information, consult the developer's privacy policy. I am usually awakened by the first bell, but I could listen to others again for pleasure. Ultimately, I love waking up slowly and gently. All alarm sounds and music follow scientifically recommend the rhythms of awakening - the entire selection of sounds and music are delicate, peaceful and - all splash screens contain a quiet high resolution photograph - the entire user interface is quiet and relaxing. The notification sound of the app is a peaceful gong wake up gently and gradually to the beautiful sounds of the Tibetan alarm call bowler bowler bowler Up gently and gradually using the beautiful sounds of the tibetan singing bowl. It's a habit. I wake up gently, no matter how tired. The Zen alarm clock is designed with zen music to wake up peacefully. At the specified alarm time, the bells will begin to ring in a predefined reason - starting slightly and slowly and gradually becoming stronger and more frequent. I've never had any problems with this app. Even the sound of the timer's notification is a peaceful gong. Travel a lot to my job and I've never lost a flight when I needed to be soon. All the music in the Zen alarm clock gently starts then has more distinct tones. All my 20-year-old night movement began to be scared from sleep from the sound of my typical media alarm. I can't pay sufficiently to this app. Start the alarm and press the Lock button (SLEEP) or activate the "Auto-Lock" setting. + This app uses the same incredible beautiful sounds used in our intuition timer meditation timer. I am always nervous I will get out of this app before going to bed, so I keep a recurring alarm in the application of the iPhone alarm in case I never had to use my BTW backup alarm). I found this app in my retired years, but better late than ever and I am pleased with sooooo. The bells are extremely realistic. Before smartphones and apps and apps that I have invested in an alarm now and Zen, however it was so difficult to set the keys to keep the Rauco set in case he failed. My setting is dark and my volume lower than max. Website developer app support the privacy policy I use it almost every day.
